Country: Dominican Republic
Subject: Procedures at Punta Cana Int'l (MDPC)
Reference: AIP

Please be aware that the procedures at MDPC have not been updated correctly in Navtech Databases for cycle 1201.

Approaches D08, S08 and S26 should not be used as the final approach and DME arcs have been modified, and this is not reflected in the database.

There are also several procedures missing from the database. These include some of the SIDs for RWY 08 and RWY 26 and the RNAV approaches R08 and R26.

The procedures have been corrected for cycle 1202.
