

Appendix 1 (updated 22 December 2023)

Table 1

The following Table depicts the **International** airports (according to AIP Russia) and additional airports within Russia which are requested by international operators (**high priority** airports).

Unless requested by an international operator, airports which are not listed in Table 1 will no longer be maintained in 2024 and will be removed from the Jeppesen Airway Manual.

If an airport is listed in Table 1, it does not necessarily mean that any updates are required.
Airports which require updates are listed in Tables 2 (charts) or 3 (NavData).
