

Navigation Database Information Letter 24-01

Doc. No.: Navigation Database Information Letter 24-01
Date: March 20, 2024

Discontinuation of 802-W4 Navigation Database Service Addition of New Navigation Database Service, 802-C4

Applicable Database Part Number

FMS Database Part Number Affected (FMS SCNs 802.X/803.X and 902.X/903.X):

- 802-W4
World Coverage (4000' Runways)

Effective Date

Cycle 2403, effective 21-March-2024

Description

The volume of electronic navigation data continues to grow at an exponential rate. In order to stay within Flight Management System (FMS) memory limits, the following navigation database coverage changes will be made.

Effective with Cycle 2403, 21 March 2024, database part number 802-W4 will no longer be available. To ensure continued database support, a new database part number will be made available.

- 802-C4, World Coverage Without USA (4000' runways)

Universal Avionics will change customers subscriptions based on the region in which they are located, as follows:

- Customers within the regions Canada, Latin America and USA will be changed to 802-W5, World Coverage (5000' runways)
- Customers within the regions Africa, Eastern Europe, Europe, Middle East, Pacific, South America and South Pacific will be changed to 802-C4, World Coverage Without USA (4000' runways)

For customers within the regions Canada, Latin America, and USA who require a database which provides shorter runway coverage, we continue to provide the following database options:

- 802-A2, World Coverage Without Pacific, South America and South Pacific (2000' runways)
Includes: Africa, Canada, Europe, Eastern Europe, Latin America, Middle East and USA
- 802-B2, World Coverage Without Eastern Europe and Middle East (2000' runways)
Includes: Africa, Canada, Europe, Latin America, Pacific, South America, South Pacific and USA

Please contact Universal Avionics Sales Administration for additional options.
